

MLAB

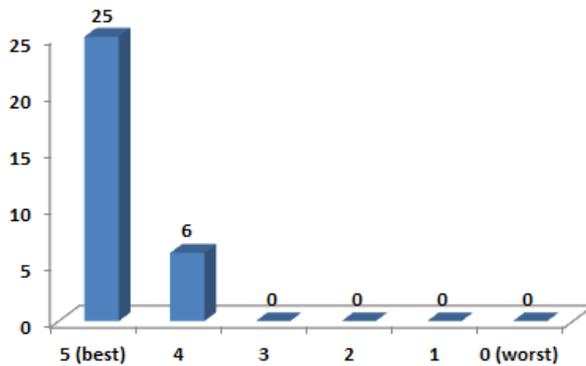

Mentoring and Language Acquisition in Brazil

Anonymous Student Evaluation - January 2015

Please provide an overall rating for the course.

All Students = 31

- “MLAB does an amazing job inspiring both the mentors and the mentees. It makes being able to travel/study abroad a real possibility for many of the participants who had never thought about it before.”

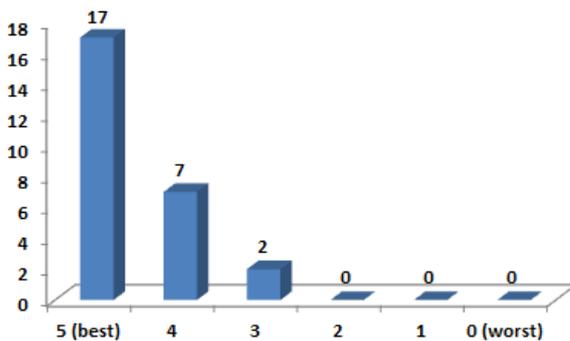

- Harvard College students

- “MLAB isn't just a program about language and culture. MLAB also creates a lot of new friendships with amazing people, and this is the most important thing. Also, MLAB is maybe the first door to study abroad. It opens your mind and shows you the new dream: be someone in this world and be remembered by who is really important.”

- Brazilian student

Please provide an overall rating for the January program in São Paulo.

All Students = 26

- “I loved getting to know my mentee during January much more than over the semester. During the fall it had the feeling of a pen-pal but January made it tangible, this are real people on the other side of the internet. Seeing their personality and how they interact with others is more telling than any skype conversation. I legitimately think that MLAB affected the lives of the mentees in a huge way.”

- Harvard College students

- “The MLAB joins the best students from US and from Brazil, all together just to change experiences. The result is amazing: a window opening in my life.”

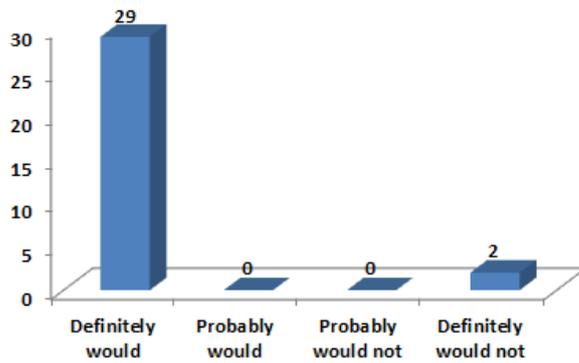

- Brazilian student

Would you recommend this course to another student?

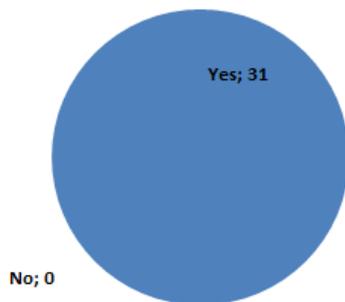

All Students = 31

- “MLAB does a good job of matching students that are likely to connect. Shared interests foster relationship-building, trust, respect, and inspiration.”
- *Harvard College Student*
- “Yes. I do think that this course improved look besides the health problem that I've been working for a long time. It also helped me about thinking in practice projects to the society. I aim to be a future professor and a researcher in Public Health Institution, of course it will help me in future. Thank you so much!”
- *Brazilian student*

Has the program improved your English/Portuguese language skills? Please describe.

All Students = 31

- “Yes. I feel that it facilitates a great relationship that brings two very different cultures together in a way that is not usually possibly. It encourages mentors and mentees to share their lives with each other and not be afraid to break out of their shells.”
- *Harvard College students*
- “Yes! Before this program, my English was very bad, really. But MLAB has improved my English skills on a higher level. Now I can understand much better, as well as speak the language.”
- *Brazilian student*

What impact do you anticipate MLAB will have on your academic, personal, and/or professional plans in the future?
